MIRROR COLLECTION

...

We have designed a unique range of mirrors with fine details and a simplistic look. The collection matches our finishes and will compliment products from across our entire range. The mirrors are available in a variety of sizes and you can even create a 'mirror wall' using multiple mirrors to suit your own style and needs.

The mirrors can be used in the hallway, bathroom, living room, in fact any environment that you wish to!

UNU ARCHITECTURAL ELEMENTS

...

UNU Architectural Elements includes the UNU Modular System consisting of furnishing products for wardrobes, hallways, living rooms or any other room.

The edging profile, characteristic of the Modular System bestows a slender and elegant look while providing endless possibilities for a well-defined and complete expression.

The Modular System is made from Matt Black or Matt White powder coated solid 4 mm aluminium in lengths of 600 or 1000 mm, available with fittings in various polished finishes. In addition, smaller racks are available as well as complementary smaller shelves.

Since both the Modular System racks and shelves are mounted on the same wall bracket, all items can be mixed and matched to suit your changing needs - the shelves may even be turned upside down.

NOVA2 SERIES

...

Bathroom, kitchen & wardrobe accessories. Consistent details such as the shadow edge between the mounting surface, and the product compliments the discreet and complete series.

All elements are interpretations of the meeting between the stringent form, and the cylindrical form - this is quite apparent on the hooks for the system.

The products are made from stainless steel 304 and designed by Bønnelycke mdd, who, with a refined sense of simplicity, technical details and stylish fit, has managed to combine aesthetics and function in one and create a range of quality products that will adorn any home.

QUADRA SERIES

...

Kitchen, bathroom & wardrobe accessories. The products are made from stainless steel 304.
The proportional dimensions 8:5:3 define the QUADRA series
as architectural building elements.

When combined, the clean-cut and stylistically consistent details
forms a characteristic and well-defined system.

NOVA SERIES

...

Nova is a comprehensive series of wardrobe products, sanitary hardware and bathroom fittings. The series is available in Brushed or Polished Stainless Steel 304 to resist the aggressive environment in toilets and bathrooms.

The simplicity and timeless design is based on form follows function. Nova can be combined in countless variations, which allow the individual user to create an individual style in all building types.

ARCHITECTURAL HARDWARE

...

With the emphasis on versatile design, clean lines and endless combination possibilities, this concept creates a modern and yet timeless range of hardware such as lever handles, roses, window handles and door stops. The products are made from stainless steel 304.

Architectural Hardware offers architects and end-users a set of tools to help achieve perfection in the important details of a building or a home by providing the finishing touches and functionality needed in our modern world.

HANDLES AND SPECIALITY HARDWARE

...

Furniture cabinet handles, knobs and complimentary components.
Your choice of style in a selection of finishes will create an individual piece of furniture.
All our Danish designed fittings with their sleek profiles will enhance
quality furniture with lines of fusion and finish.

Knobs are an opportunity to enhance your door or draw with the right look.
Many designs offer sophistication and elegance for contemporary and traditional furniture.

Cutting edge Danish designs for high tech furniture in kitchen,
media storage and bathroom areas.

Design brackets to match our quality handles.
Functional elements for your interior design.
